Call for Embedded Tutorials

Guidelines for Proposal Authors

An embedded tutorial should address an important and timely-relevant topic that is of large interest to the ETS participants. Each tutorial will be given in a session of one-hour time slot. Proposals for embedded tutorials should use a specific template. Click here to download the template.

By means of submission, tutorial presenters agree to register for and participate in ETS'18, in case the submission is accepted.

Key Dates

Submission deadline: January 29, 2018
Notification of acceptance: February 13, 2018
Camera-ready manuscript: March 18, 2018

Submission Website

Submissions should be made electronically as a single PDF file here.

Publications

Upon acceptance, the presenters for each embedded tutorial can prepare a single paper of up to 10 pages for the entire session, to be included in the formal proceedings.

Contact Information

For more information, please contact the Embedded Tutorial Chairs, Teresa McLaurin and/or Maria Michael.
